They offer a unique opportunity for Year 11 students to complete a two-week internship at a local company.

This provides the students with invaluable experience and a great way to enter the labor market..

School description

Yago School is located in the town of Castilleja de la Cuesta, only 6 km away from the beautiful city of Seville. Students can easily reach the city centre in just 15 minutes by bus. Yago School's origins date back to 1979 in Dublin, where a unique approach was used to teach the Spanish curriculum in Ireland. The current Yago School in Seville was founded by alumni from the first Irish school 15 years ago.

What makes Yago School special is its open-minded and forward-thinking attitude:

- On one hand, this is reflected in the fact that year 11 students are offered a unique opportunity to complete a two-week internship at top companies, providing invaluable real-life job experience, which is unusual for schools in Spain.
- Additionally, some classes are organized outdoors, taking advantage of the pleasant climate in Seville.
- Music and art are also given high priority in the curriculum.
- Yago School offers an outstanding program that provides the Spanish curriculum with English as the main source of communication during the early and first years of secondary school. Moreover, Year 11 students have the option to follow the International Baccalaureate program.

School equipment

Very few schools in Spain have its own professional recording studio and 32 pianos in the music room! Classrooms are equipped with interactive whiteboards, the latest generation LED screen technology and/or laptops, and 1 GB Wifi coverage. Most all tables are collaborative to work easily in teams. Other great facilities: nature outdoor learning classrooms, computer room with two 3D printers, robotics room with Lego, art classroom, indoors sport centre, multipurpose sport tracks and pitches, critical thinking classroom, forest and gardens, orchard, rooftop, etc.

Have you ever seen a school with a professional recording studio?

In Yago School you can find it!

Orientation in September – SAIL TRIP!

Boarding students will participate in an exciting orientation program during the initial days of September. This program consists of a sailing trip from Valencia to Formentera. Openmind will provide you with more details. This incredible orientation is included in the price.

Academic information

The school provides two academic programs: the International Baccalaureate (IB) and the Spanish Diploma. The Spanish Diploma is conducted entirely in Spanish. For specific details regarding the subjects covered in the Spanish Diploma, please reach out to us.

How many reports are sent to parents?

At Yago School, class teachers regularly inform agencies about students' academic performance and provide one report card per term.

Feedback from one of our international students

"The school takes really good care of you and tries to fulfil all your wishes. I can always come to my local coordinator at the school if I need anything. I've been at the school since September and have already had some great experiences. The students are very open-minded, and you make friends very quickly. Teachers are definitely responsive to you. You can definitely improve your English, as the teachers also come from the USA or Ireland and therefore speak good English. The school is very modern and very digital. Overall, I can definitely recommend the school."

Some lessons are given in the outdoor classrooms.

Learning under the Sevillian sun is a total privilege!

Kristin and Carmen with the School's Principal and Admission Director
